

Updated March 12, 2020

**Policies in effect to protect our participants:**

- We will begin cleaning boats at the end of each day
- New policies for only elbow bump greetings among all participants and staff.
- Hand sanitizing stations at each location
- Strictly enforcing no food sharing at lunch
- Clean picnic tables, water cooler nozzles, door handles, and any other identified high transmission risk area multiple times throughout the day
- In addition to our ongoing protocol to have campers use the same helmet throughout the camp week, we will have camp-wide daily helmet cleaning.
- Continue to follow CDC guidelines as they pertain to our programs. This includes amending and being flexible with our current policies that may be affected in this process.
